Some Interesting Testimony Is Told Before the Commission.

WHAT THREE STATE

President of One of the Local Unions, a Fireman and the Recorder of St. Gabriel's Parish on the Stand.

Scranton, Pa., Dec. 5.—Before the anthracite commission Thursday W. H. Dettrey, a miner from the Hazleton region and president of his local union, who was on the stand Wednesday, was recalled at the opening of the afternoon session of Thursday. He presented some correspondence that passed between himself and the Cox company with reference to the re-employment of 639 men who struck and were not given back their places. Some of these men were subsequently taken back. The witness testified that the mine foreman read him a letter in which President Dettrey was informed that the other men would not be taken back until after the strike commission shall have made its award. If the award, he said, the letter stated, is against the men, none of the United Mine Workers will be taken back.

Jackson Ansbach of the Hazleton region was an interesting witness, because he is the first fireman to appear before the commission. He said he received \$1.57 for a day of twelve hours, and his assistants \$1.26. On every other Sunday when he and his assistant shifted from day to night work, they were compelled to work twenty-four hours straight without relief. This statement caused a buzz throughout the courtroom and every commissioner straightened up and became interested. He said he was off duty one day every two weeks, thus working six days one week and eight days the following week.

"Supposing you should fall asleep when you work in the long shift of twenty-four hours, what would happen?" asked Mr. Darrow.

"Well," he replied "if I slept long enough the fans would stop, gas would accumulate in the mines, and if an explosion took place some men might be killed; that's all."

Rev. James V. Hussie, rector of St. Gabriel's Roman Catholic church, Hazleton, Pa., and the dean of Lower Luzerne county, was the next witness. Father Hussie stated that he had an intimate knowledge of conditions in and about Hazleton, because he was rector of the parish there. Drinking among the miners, he said, was at a minimum during the strike. When asked to explain the general conditions as he found them, Father Hussie said he had lived in the coal regions practically all his life.

"The conditions in this region," he said, "are deplorable. The mine workers are barely able to exist. I say this without any coloring, knowing I am under oath. I have been in their homes. They are not homes, but merely a habitation, a resting place. They are frugal, conservative, reasonable and God fearing. We have eight Catholic churches in Hazleton and they are crowded every Sunday with worshippers, and this is no doubt true of the churches whose faith is opposed to ours."

Continuing, Father Hussie said that this was the condition before the strike and that during the suspension the mine workers and their families were more pinched, that they were more economical in many things and barely existed. Families cannot be kept together, he said. The boys are sent into the mines almost as soon as they are able to toddle out, and the girls are sent to the mills in the small towns in the vicinity or drift to the large cities. He related instances of poverty and said that it took one man six years to pay off a funeral debt of \$200.

Reed Better.

Washington, Dec. 5.—The condition of former Speaker Thomas B. Reed was considerably improved this morning, according to a bulletin given out by his physicians after their early visit. Uraemic symptoms, which Thursday night gave the doctors so much concern, are abating, and there is an appreciable reduction of temperature, pulse, and respiration.

British Club at Yale.

New York, Dec. 5.—A British club has been formed among Yale students.

A new project has been under way for some time, as in last three years over twenty-five graduates from Canadian institutions have joined the graduate school and the senior class at Yale, Acadia college and University of Toronto sending the most men. WEATHER AND WATER.

Rain, Snow and Sleet Prevail in Several Southern States.

Shreveport, La., Dec. 5.—Red river continues to rise at Shreveport and points above. The bottom lands, inhabited principally by negroes, are filling with water. A number of families have been forced to leave, and as a further rise of five feet is predicted for this place, hundreds may have to abandon their homes. The gap in the levee at Belcher, twenty miles above Shreveport, is reported to be widening. There appears to be no immediate danger of loss of life, though there is likely to be considerable suffering. Relief measures are being taken. Snow and rain continue to swell the rushing waters.

Violent at Vicksburg.

Vicksburg, Miss., Dec. 5.—A cold wave, accompanied by rain, snow, sleet and a stiff southwest gale, struck this section of Mississippi early Thursday morning and raged furiously all day. Snow, the heaviest seen here in many years, fell for several hours, but melted as soon as it struck the earth. The temperature was below freezing Thursday night.

Rain and Sleet.

Memphis, Tenn., Dec. 5.—Rain has been falling all morning in the territory adjacent to Memphis. At Holly Springs, Miss., the rain turned into sleet. Telegraphic communication is badly hampered south and west of Memphis.

Cold Wave and High Water.

Alexandria, La., Dec. 5.—The cold wave reached here Thursday, accompanied by rain, sleet and snow. The temperature went down to 32 but no ice was formed. Red river is rising rapidly and fears of a flood are entertained.

Eight Inches at Texarkana.

Texarkana, Tex., Dec. 5.—Eight inches of snow fell here Wednesday night and Thursday. This is the heaviest fall previous to Christmas ever known in this section.

Under the name "Industrial Company of the North" a consolidation has been effected of the four largest cotton factories of northern Mexico that are engaged in the production of bleached cotton. The companies combined are located at Parras, Saltillo, Gomez Palacio and Monterey, Mex. Santiago Prince of Gomez Palacio is president of the combined companies. The capital stock is \$100,000.

Players Nearly All Signed.

New Orleans, Dec. 5.—Manager Powell of the local baseball club has most all the team signed for the coming season. Ten of last season's club have attached their signatures to contracts. Every player that is wanted of last season's team can be had. The new people here who are talking of putting in a club next season have not, as far as is known, invested a cent up to date.

Dr. Guiteras, of unpleasant memory in Texas during the days of quarantines and yellow fever scares, has bobbed up in a sanitary conference at Washington.

Shrewd farmers who expect to make cotton next year are making arrangements to get their seed from localities where the boll weevil has not appeared and plant very early and as often as the cold weather may make it necessary. They expect to beat the boll weevil to a part of the crop and let him have the rest of it without a struggle.

A boll weevil convention has been called to meet in Dallas December 17. Prof. Sanderson of the A. and M. College and Prof. Mally of Garrison, Texas, and also members of the legislature, have been specially invited to attend. All mayors and county judges are also requested to appoint three delegates each to attend the meeting. An effort will be made to put the legislature on the trail of the boll weevil.

The town of Crowley, La., has a curfew ordinance which provides that from April 1 to October 1 of each year all children under 16 years of age must be kept off the streets from 9 p. m. to 5 a. m.; and from October 1 to April 1 children under this age must be kept off the streets from 8 p. m. to 6 a. m., unless accompanied by an adult. Some such law as this would be a wholesome measure for every town to adopt.

An east Texas razor back hog was exhibited at the Chicago national live stock show and attracted large crowds daily. It took twelve policemen with clubs and sticks to make the hog stand still long enough to be photographed. The shrewd yankees of Wisconsin are now crossing Texas razor backs with pure bred Poland China hogs and producing a wonderfully fine quality of bacon and hams, equal to the Westphalian product.

Grand ..Free AERIAL EXHIBITION

Given to the Public by Bryan's Enterprising Business Men

Prof. JNO. E. BALDWIN

Will leap for life from the clouds, in his Frail Parachute after giving a

Battle In Cloud-Land by deadly war bombs.

This Celebrated AIR KING actually explodes Bomb Shells at an altitude of one mile, and is the only man in the world to do an act of the kind. Think of it! He will carry and explode bomb shells at

BRYAN, 10th
Wednesday, DEC...

That would blow the Court House into atoms, and the report can be heard twenty-five miles.

Sergeant Baldwin had charge of one of the government war balloons during the Spanish-American war, and this fact alone proves his ability in his chosen profession.

He has aeronaut Cats, Rabbits, Dogs, etc., that he takes with him to Cloud Land, and they do the parachute act as fearlessly as Baldwin. He is the only man on earth that floats five parachutes in mid air at one time. He represents Snow Storms and does a fine line of Trapeze Acts. See Lithographs. (He does just what you see pictured.)

This is a treat that you cannot afford to miss, so come and see this Great Air King and his famous Santiago Balloon.

His Trapeze Acts are hazardous. His Snow Storms are pretty. The report from his War Bomb is deafening and the animals float as gracefully to the earth as does the professor himself. Listen for the report of the bombs, and then look for the leap for life by Baldwin.

The leading business men of Bryan pay the expenses of this exhibition, and invite their patrons and friends to come and spend a day in the city. Remember is free and one of the finest exhibitions in the world. Do not forget to bring your trade. The merchants are prepared to sell you goods of all kinds as cheap as any other city in Texas, and the stores will all offer you great bargains on this great trades day.

REMEMBER HE WILL MAKE HIS ASCENT FROM THE STREETS OF BRYAN

WORK OF THE SHAKESPEARE CLUB.

The ladies of the Shakespeare club aside from their regular work in the course of study mapped out for the year, are doing a great many enterprising things that are of benefit to worthy enterprises and the good of the community. Some time since they made a donation of 100 books and \$100 for the Carnegie library. When arbor day was observed last week at the Ursuline convent they thoughtfully sent to the sisters a wagon load of young trees, shrubbery and flowers. The last move they have made in this direction is even more praiseworthy. They have arranged with the Messrs. Wagner & Brandon, Webb Bros., Burt Norwood and W. J. Coulter, local dry goods merchants to place in each of the four stores a supply of newspapers and magazines for free use and distribution among all of those who wish to avail themselves of them. People who come to Bryan to trade are especially invited by the ladies to avail themselves of this opportunity, and in this way the plan partakes somewhat of the advantages of a rest and reading room.

A Great Day in Bryan—December 10.

Prof. J. E. Baldwin, the war balloonist, will make one of his great balloon ascensions from the streets of Bryan on December 10. He will execute his wonderful parachute act, descending from the clouds in parachute, and it is an event of a lifetime to witness it. Bombs exploded at a great height, rabbits and pet animals descending in parachutes. The merchants of Bryan pay him for the ascension, and invite everybody to come and see it. A great crowd from all surrounding counties is expected and it will be a notable day in Bryan. Come to see the magnificent spectacle.

MINISTER BUCK DEAD.

United States Representative Expires Suddenly While on Duty.

Washington, Dec. 5.—The Japanese minister called at the state department Thursday and communicated to Secretary Hay the contents of a cablegram he had received from the minister of foreign affairs at Tokio to the effect that United States Minister Buck, while on a hunting trip Thursday morning, had taken suddenly ill and expired. Apoplexy was the cause. The deceased minister was born in Maine; was appointed to his post from Georgia in April 13, 1897. His service covered a critical and important chapter in Japanese history. The state department will take the necessary steps that Mr. Buck's remains are brought to this country for interment if his family so desires. Huntington Wilson, secretary of legation was designated as charge.

At the close of the official day Thursday a cablegram was received at the state department from Mr. Ferguson, the second secretary of the American legation at Tokio saying that it was his painful duty to announce the death of Minister Buck, but making no explanation of the conditions.

It is expected the remains of the dead minister, who is a veteran of the Civil war, will be brought to Washington for interment at Arlington, where the minister selected a burial site for himself when he was in the United States about two years ago. Mrs. Buck is understood to be in Tokio and the state department will address a proper message of condolence to her.

Resided at Atlanta.

Atlanta, Ga., Dec. 5.—Alfred E. Buck was a native of Maine. Before coming to Atlanta, he lived in Mobile a number of years. He was about sixty years of age. Many years ago he removed to Atlanta and became a leader in Republican politics in Georgia and in 1897 was appointed by President McKinley, United States minister to Japan, which post he has since held. His last visit to Atlanta was made about one year ago.

TRAGICALLY SUDDEN.

Late Minister Expired While He Was in the Act of Resetting a Net.

Yokohama, Dec. 5.—Paralysis of the heart caused the death of United States Minister Buck. The end was tragically sudden. Mr. Buck was the guest of the emperor on a duck hunt on Shinjima preserves. A bird had been netted and the minister with a jocular remark started to reset the snare. Suddenly he fell and without a groan expired instantaneously. He had suffered with a weak heart for some time. Mrs. Buck was not with the party.

Minister Buck was held in high esteem in Japan. Flags on the government building were set at half mast. The funeral is set for Monday.

Secretary Ferguson is in charge of the United States legation.

JOKE WAS FATAL.

Boy Blown up With a Pneumatic Air Tube Dies in Great Agony.

New York, Dec. 5.—Harry Ruit, an employe of a locomotive works in Paterson, N. J., died as a result of a practical joke played on him by five of his fellow workmen. They were arrested, charged with causing his death. It is alleged that they blew up Ruit with a pneumatic air tube with a pressure of 110 pounds to the inch. The boy's stomach became greatly distended and after several hours of great suffering he died.

When the men accused of having caused Ruit's death were arraigned in court in Paterson the dead boy's father rushed at one of them named Dorn, knocked him down and started to kick him. The father was restrained by the court officers.

The accused men were held without bail on a charge of manslaughter.

Surprised at Unexpected Turn.

Washington, Dec. 5.—The unexpected turn in the Cuban treaty negotiations at Havana greatly surprised officials here, who had every reason to believe from Minister Squires' report that the treaty was practically an accomplished fact. Now that it is to be thrown into the house of representatives at Havana with the Nationalist majority supposed to have established closer relations with the United States, it is feared the treaty is lost. If not rejected outright it is almost certain to be amended so as to make it unacceptable to the United States.

Referred to Subcommittee.

Washington, Dec. 5.—The subcommittee of the house judiciary committee having trust legislation under consideration reported favorably to the full committee the publicity bill. Then the committee referred this bill, and all others, to the special subcommittee, consisting of Messrs. Littlefield, Overstreet, Powers, Clayton and DeArmond.

Private Calendar Considered.

Washington, Dec. 5.—The house considered bills on the private calendar.

Was With Custer.

New York, Dec. 5.—William Henry Welsh, traveling passenger agent of the New York Central railroad, is dead at Yonkers from a tumor on the brain. He served through the Civil war with the One Hundred and Sixtieth Michigan regiment, and later was with Custer in the Indian campaign.

MISHAP OF A MISS.

A Daughter of a Prominent Tennessean Found Unconscious.

Memphis, Dec. 5.—Miss Bessie Dismukes of Gallatin, Tenn., daughter of State Senator W. C. Dismukes, twice speaker of the upper house of Tennessee legislature, was found in an unconscious condition at the corner of Calhoun and Shelby streets Thursday night lying in the mud near the sidewalk. She was carried to the police station and there identified by a card found in her purse, on which her name was engraved, and that of her father written on the back in pencil. Miss Dismukes was immediately taken to the city hospital, still in an unconscious condition, and restorative measures were taken.

She regained consciousness and stated that she came to the city Thursday afternoon at 4 o'clock. On the train, she says, she met a young man of McKenzie, Tenn., and came up town with him. She stated that she drank some wine and after that she remembers nothing.

The physicians at the hospital say that Miss Dismukes had been drugged. Police officers were called to the hospital and held a long conference with the physicians after the examination.

FIREMEN INJURED.

A Wall Fell Upon Them and One Buried Under the Debris.

Cleveland, O., Dec. 5.—While the members of the fire department were still fighting the flames in the ruins of the Likly & Rocket factory, at the corner of Case and Hamilton streets, which caught fire Thursday night, a portion of a wall fell in upon members of engine company No. 14, burying them in the debris. Those who thus were caught were Captain Daniel, Fireman James L. Osberger and Arthur Garner, who were working just outside the wall; Lieutenant Robert McKenna, Hoseman Sam Jones, Chas. Niedinger, Patrick H. Joyce, who were on the inside. All were rescued except Joyce, who was buried deep under the piles of brick. The injuries of McKenna and Niedinger are serious, while the others are slightly injured.

Fell from a Stepladder.

New York, Dec. 5.—John Grey Boyd, a well-known and one of the best known citizens of Fordham, has fallen from a step ladder in the cellar of his home and suffered a fracture of the skull, from the effects of which he died. It had been his custom for years, although he was a man of wealth, to make repairs about his house. He was engaged in that manner when the accident occurred. Boyd was sixty-three years old, and for the last thirty years he had been a prominent member of the New York bar.

Poor Quality of Oil Used.

San Francisco, Dec. 5.—Investigation into the causes which lead to the explosion on the steamer Progresso at the Fulton Iron works Wednesday, by which thirteen men are supposed to have lost their lives and others badly maimed, shows the quality of oil which exploded on the steamer was poor. The law prescribes the oil to be used for fuel must not flash at a temperature of 110 degrees, while that furnished to the Progresso flashed at 101 degrees.

Got One Thousand Dollars.

Pocatello, Ida., Dec. 5.—Three unmasked men entered the Eagle Club rooms Thursday night and robbed the place of about \$1000. Two of the men advanced with drawn revolvers into the room in which there were not less than thirty-five men. The third man then marked around to the games and gathered up the money. The robbers fired a volley into the ceiling before departing.

For a National Highway.

New York, Dec. 5.—It has been decided by the executive committee of the National Association of Automobile Manufacturers to call a convention in February to take action toward an appropriation of \$20,000,000 for a national highway. The feature of the bill to be presented and urged will be a proviso that the expense of the proposed highway be shared equally by the national government, state and county.

GRANT AT LAREDO.

Commander of the Department of Texas on a Tour of Inspection.

Laredo, Tex., Dec. 5.—General Frederick Grant, commander of the department of Texas, who is on a tour of inspection of the border posts, arrived in this city Thursday from his headquarters at San Antonio. He was met at the station by a delegation of Mexican army officers stationed at the barracks in New Laredo, Mex., headed by Mexican Consul Zamorano and the crack ninth regiment band of Monterey and was extended an enthusiastic welcome to the border on behalf of Mexico. The welcoming party also included the officer stationed at Fort McIntosh in this city and a delegation of representative citizens, who tendered to Gen. Grant a hearty welcome.

In reply to a few well chosen remarks of welcome by Mexican Consul Zamorano, welcoming him to the border, General Grant asked that his thanks be tendered to President Diaz, and referred to the strong friendship which existed between his deceased father, General U. S. Grant, and Mexico's chief executive.

The general will remain here a day or two inspecting this post and will then proceed on his tour of inspection to the various posts in the lower country.

SENATE SESSION SHORT.

The Upper House of Congress Did but Little Business Thursday.

Washington, Dec. 5.—The senate was in session Thursday one hour and five minutes. Most of the time was spent behind closed doors. After the reception of a number of bills and petitions and the adoption of a concurrent resolution calling on the president for the papers in the Plus fund case, recently arbitrated before The Hague tribunal, Mr. Beveridge had read the resolutions by the delegates to the Oklahoma non-partisan convention favoring the admission of Oklahoma and Indian Territory as one state and opposing the house omnibus statehood bill. The senate then went into executive session, and at 1:05 adjourned.

Washington, Dec. 5.—The president sent the following nominations to the senate:

Robert M. McWade, Pennsylvania, now consul, to be consul general at Canton, China.

Carter. When the hearing of Secretary Root was concluded the committee decided to report the bill as it passed the house without amendment.

Seventy Thousand People Attended the Livestock Exhibition.

Chicago, Ill., Dec. 5.—Thursday was a banner day at the International Livestock exposition, 70,000 people going through turnstiles. In the Dexter Park amphitheatre the crowd was so dense at night that the police reserve was sent into the ring to prevent a crush and to lend assistance in case of emergency. No accidents occurred, however, and the cheers of the multitude of spectators were deafening as the prize winners, composing the evening's parade, passed along the exhibition space. The judging of sheep carcasses at a packing house was one of the attractive features of the day, a large crowd gathering to witness the selection of the winners.

MISS FAY LEE,

President of the Shakespearian Club, Kansas City.

"Your booklet came to my home like a message of health when I had suffered with headache, backache and bearing-down pains. I was weak, nervous and hysterical and had not consulted any doctor, thinking it would pass away in time, but instead I found that the pains increased and were more frequent. I decided to try Wine of Cardui and in a short time was much improved. It seemed to act like a charm. I kept up the treatment and the result was most satisfactory. Words fail to express my gratitude for the suffering that is now saved me. I am in fine health, physically and mentally. I can only say 'thank you', but there is much more in my heart for you."

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 603 1/2 North Seventh Street, Kansas City, Kansas, was coming to when she rescued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman again, as it has made a million other women strong and healthy. By inducing regular menstruation the entire system is relieved of the terrible wasting drains. The ligaments which hold the womb in place are strengthened by a healthy flow and that organ is returned to its normal position. Returning health is the result. This is what Wine of Cardui has done for thousands of the best women in America.

BEARING-DOWN pains are the worst that women know. If you are suffering from this trouble you need not be uncertain about it. The pains in the abdomen and back that feel as if heavy weights were pulling down on the nerves of the stomach are "bearing-down" pains. They may not be particularly severe at present but they are growing worse. That headache which nearly drives you distracted now is caused by the terrible
